

WEIGHT LOADING GUIDELINES

RAX1 - HEAVY DUTY BOLTLESS RACKING

Maximum Bay Load - 2000kg

FOR YOUR SAFETY

- DO NOT climb or stand on the shelving
- Always distribute the load evenly across the shelves
- * Never exceed the recommended UDL (Uniformly Distributed Load)
- Load heavy items on the lower shelves and lighter items on the higher shelves
- Products over 2000mm high should be fixed to the wall where possible
- Always use safety steps to reach high shelves
- Hand Load only, do not use fork lift trucks
- If in doubt, contact us on 0121 508 5877
